- The odds of any one relationship working out long-term are low, so chances are, this one won't work either.

- Moreover, if the relationship lasts, you can be pleasantly surprised.

- You might find yourself getting a little obsessive during this month.
- If things have gotten a little complicated in your love life, you need to listen to each other without interrupting or taking things personally.
- With lots of patience, you can get to the other side of a sticking point now.
- This is the time to really connect on a deeper level instead of getting swept away by good looks and charm.
