1.Factors influencing career in the birth chart:

- Any horoscope is judged mainly from the ascendant and the Moon sign.
- Strength of ascendant and Moon sign and of their lords are very important.
- Career is evaluated with respect to these reference points.
- Since career is represented by the 10th house (more precisely the point 300 degrees away from any reference point), we need to assess the 10th house from the reference points.
- The strength of the lord of career house from ascendant and from Moon will be equally important and must be checked for their contribution.
- The overall strength or weakness of the career houses will be influenced by the strength of their lords and also by other planets through their relative positions and also by their aspects on important areas.
- All these effects will be seen with respect to the applicable planetary periods (main and sub periods) and also the transits that are applicable at any given time.
- Mutual relation between various transits and yoga-s present in a horoscope are also taken into consideration.

2.A basic assessment of the D10 chart & strength of the birth chart career factors in D10 chart:

A.The planets' strength in 10th house with secondary clues from planets in 6th and 7th house:

- Your ascendant in birth chart D1 is Leo.
- Sun, lord of ascendant, is debilitated, very weak.
- Sun also has very poor digbala (directional strength) and hence Sun is quite inactive for offering or promoting good results in career and in other areas of life.
- Sun in Libra is also opposite to his most dire enemy Saturn in Aries and this very negative.
- Venus, the lord of 10th house of career from ascendant, is strong and has more than 50% digbala, both positive for career.
- But Venus is very inauspicious in her effects.
- Mercury, the lord of Moon sign Gemini is well placed in exchange of sign with Venus.
- Mercury is moderately strong with very high digbala, overall quite positive.
- But Mercury is opposite debilitated Saturn.
- Jupiter, the lord of career house from Moon, is very weak in overall strength but he has good digbala (mixed effects).
- Debilitated Saturn aspects Moon sign and also Mercury, the lord of Moon sign.

- Moon suffers from Papa Kartari yoga (PKY) between Saturn and Ketu.
- Mars is in mutual aspect with Saturn while Venus is in 2:12 locations from Venus.
- Thus overall support to career progress and stability is mixed and not consistent and can become quite obstructive.
- Further Ketu in ascendant with Rahu in the 7th in Aquarius are quite negative.
- Thus none of the nine planets [including the planets directly related to career] is independently and adequately capable of offering sufficient or timely support to welfare of your career.
- The main period ruling over the next ten years is Mercury [highly afflicted as given above].
- Under Mercury main period, the sub periods of Mercury, Ketu, Venus, Sun, Moon, Mars, Rahu and Jupiter will operate till 30 Mar 2027.
- All these planets are variously afflicted as given above.
- Thus the overall strength of the area of career is per se moderate and somewhat disturbed while the period lords are incapable of adequately protecting or promoting your career.
- The 6th and the 7th houses cannot do any meaningful favor to your career since lords of both, Saturn is not well placed to help.

The planets aspecting the 10th house:

- The 10th house from ascendant in your birth chart D1 gets the aspect of afflicted Jupiter.
- The 10th houses from Moon in your birth chart D1 gets aspect from afflicted Venus and Jupiter.

The D10 Chart:

- Ascendant is Taurus and Moon sign is Libra.
- Venus, lord of ascendant, is placed in the 8th house from ascendant, negative.
- Saturn, the lord of career house from ascendant, is quite ill placed in the 3rd house from ascendant.
- Moon sign is afflicted by the nodes and also by Mercury.
- Moon herself is the lord of career house from Moon sign.
- Venus (lord of career house from ascendant in D_1 birth chart) is in in mutually 6:8 locations with Saturn in D10 chart, quite negative.
- Jupiter, the lord of career house from Moon sign in D1 chart, gets adverse aspect of Rahu and is in 6:8 locations from Saturn in D10 chart, quite negative.

Best career path to follow as per D10 chart:

- Employment career will be comparatively the most suitable, stable and growth oriented for you.
- You can get many opportunities in this type of career.
- Business or self-employment will not be beneficial though you may have the ability to work well in these areas but you will miss out on suitable opportunities or overall luck for success.

Industries & types of profession suitable as per D10 chart:

- Areas related to careers involving or combining some of the following will be suitable for you.
- Intellectual careers involving much mental activity, advisory roles, accountancy, financial management, banking, NBF industry, legal services, judicial positions, teaching, medicine and all allied industries, hospitality industry, entertainment industry, luxury goods industry, textile industry, and transport industry.

Predictions for next ten years:

- Since all planets are afflicted in varying degrees, the lords of the main periods and the sub periods cannot adequately protect or promote your career events.
- Thus any good event in career will basically depend on your own wisdom, attitude, judgment, communication and efforts, and on the quality of the applicable transits of planets at any point of time during these years.
- All predictions given hereafter are to be understood in light of the above observations.

Period till 27 Oct 2017:

- Transit Saturn will be in the 5th and 4th house from ascendant [adverse due to restriction on 10th house of career and on 5th house of judgement, 6th house of secondary house of career from ascendant and on ascendant.
- Till 19 Jun 2017, transit Saturn will also be in the 7th house from Moon (excessive workload) and square to Jupiter [many restrictions]
- After 19 Jun 2017 till 27 Oct 2017, support of transit Saturn will be present on the 6th house from Moon but will not be available for 4th house from ascendant while many situations of communication failure, obstruction to growth and obstructions from and significant disagreements with seniors will occur.
- But transit Jupiter will be very positive in favorable locations throughout.
- Career cannot remain smooth or peaceful and is not expected to grow in position but income will grow quite smoothly.
- However some enlargement of your role and workload and responsibilities will occur and this will assist and allow in getting good hikes in pay.
- At work, too much difficulty, restriction, obstructions and thus imposed delay in output will cause much tension.
- Seniors will remain often unhappy and may not cooperate adequately.
- You will need to strictly avoid impatience, anger, haste, arguments, differences and controversies.
- You must take total care of your observation, analysis, judgment and communication in all matters.

28 Oct 2017 to 24 Jan 2020:

- Saturn will now be in your 5th house from ascendant will affect your judgment and creativity and in the 7th house from Moon will much increase your workload.

- Due to Saturn square Jupiter and Venus in D1 and square Mars in D10, you will miss out on cooperation from everybody and working will become very difficult.
- This will happen irrespective of whatever cooperation and assistance you offer to others.
- This entire period will not allow any option to progress in career except getting moderate hikes being possible.
- Transit Saturn square natal Jupiter will cause and support your seniors to restrict your style of work and even censor your powers of taking decisions.
- All these will happen despite the support from transit Jupiter but Jupiter will make moderate hikes possible.
- Many differences and even controversies can develop at work but only your right attitude can help you.
- Stay very tolerant, flexible and determined to hang on.
- Transit Jupiter will support such good efforts and there will not be any direct threat to your job.
- At times you will be much inclined to change your job but getting a suitable position at this stage will not be possible.
- Even if you can change your job, the negatives of this period will occur in the new job too.
- On the whole this period will remain a period of test and you can pass this test only through patience, good communication and hard work.
- You must not lose focus on your professional responsibilities and continue to work very hard.
- Focus is very important as any enemy action from anyone will try to make you lose focus so that you commit mistakes at work.
- No progress in position is expected within this period but your income will grow well during 2018 and also during 2019.

25 Jan 2020 to 30 Apr 2022:

- This period will offer very heavily mixed results but still quite inclined to be negative.
- Transit Saturn in Capricorn now will be in the 6th house from ascendant (very positive and gainful) but in the 8th house from Moon (Astama Sani – extremely negative) and also moving over Mars and square to Sun, Mercury and Saturn.
- Even in D10 chart transit Saturn will be square Mercury and opposite Saturn and moving through the center of the nodal axis (all negatives).
- You will face very significant obstructions, criticisms, challenges and possibly even much persecution from the top.
- You will need to take special care about those areas of your work that may have some legal implication (effects of transit Saturn moving over 9th house lord Mars).
- But at the same time you will get a very superior change of job with higher position and rank and very encouraging hike in pay and this will happen in mid-2020.
- Despite this, the above issues will remain as they are.
- Near total lack of cooperation from everyone, peers or seniors, in both current job and in the new job will operate.
- The overall scenario will not encourage you to work harder but that is exactly what you will need to do.

- Do not take any work situation personally or attach any emotion to them.
- Stay entirely inert, as far as your reactions are considered, during 2020 and also later.
- 2021 and 2022 will not change anything significantly on ground but transit Jupiter [frequently debilitated during 2020) will again become highly favorable.
- Thus 2021 will grant you a good hike, despite whatever your seniors may think about you.
- Only your performance will speak.
- The same trend will run during a part of 2022 in this period.
- Lack of further growth and many imposed restrictions on you frustrate you but you can only remain calm and tolerant.
- You will not have any other option now.
- Need to keep your chin up

01 May 2022 to 30 Mar 2025:

- The negative effects of Astama Sani will be off now but many other issues will remain.
- This is a very highly demanding period and you can maintain stability of career only by standing up to these demands.
- However it will be very difficult to meet the excessive work load.
- Take special care of areas of work that may have any legal implication (transit Saturn in the 9th house from Moon).
- Transit Jupiter will be in much helpful locations and will keep all issues within tolerable limits while you will be able to somehow meet the demands on you.
- Career will stable during mid-2022 to Mar 2025.
- Very good growth in salary is expected and your role too will further expand and responsibilities will rise very frequently.
- Income will develop very well and good hike is assured during 2024 and 2025 too.
- You will do well to take up all new projects or tasks in parts, except for routine areas of the work which needs daily attention.
- This period demands that you work harder, to keep things stable.
- Seniors and peers (D10 chart) will be too critical but this will happen to all and will not be specifically directed to you.
- Yet for your own interest you must not argue on any matter and work in totally obedient and disciplined manner.
- DO NOT offer unsolicited suggestions or ideas.
- Just focus on hard and regular work as directed from the top.
- Your freedom of taking decisions will remain under some check but this is not a time to mind it or objecting to it.
- Just ignore what you do not like and continue with alert and hard work.
- Maintain proper discipline and do not invite any negativity from anyone.
- Go slow and steady and there will not be anything adverse if you take reasonable care.

31 Mar 2025 to 31 Mar 2027:

- After 31 Mar 2025 till 30 Nov 2026, your responsibilities will be increased even further and restrictions on your working will be increased too.

- Thus it will appear quite difficult to handle your job situation.
- Actually transit Saturn will now be in your 8th house from ascendant (very similar to Astama Sani from Moon, effects similar to during period 2020-2022).
- Transit Saturn will also be opposite Jupiter in D1 chart and opposite Mars in D10 chart.
- Thus many frictions with seniors and colleagues and obstructions from them will operate.
- But at this stage you will be to handle this better and therefore your confidence should not be allowed decline.
- You should be ready for this stage and must act without any negative thoughts in your mind.
- You will earn good hike in pay for your contribution despite much increase in workload.

Remedies - if any, considering the D10 chart:

- Pray to Sun God in the morning and offer water.
- Avoid non vegetarian food on Saturdays.
- Donate to orphanages, whenever possible.

Suggestions for improvement in your career based on your D10 chart:

- Your natural intelligence and proficiency in work in any area are good.
- But you may not get the full benefit of these if you do not develop more self-control, improve your judgment and communication and avoid disagreements with superiors and sudden bouts of anger.
- Any possible aggressiveness towards your seniors at work must be curtailed.
- Otherwise your ego and anger will continue to affect your patience too easily and will also disturb your physical vitality that is necessary for sustained hard work and good performance.
- Your attitude will cause many controversies, displeasures of superiors and others, and will also cause many obstructions in your progress.
- You will need to strike a balance between what you prefer to do and what needs to be done for your benefit in career and other areas of life.
- This is very important and even crucial since in career matters, you may also have an inclination to stick to one extreme or the other of any matter or issue and may not be ready to be on the middle of the road while the career events will move in destined manners (D10).
- This tendency will create many very difficult situations for you and too much enmity and unpopularity will be generated.
- You will do well to accept others' views and opinions too, based on merit or not based on ego.
- Most events in your career will occur and move in a predestined manner and you will not have any control over them.
- Your efforts to stop them or to change them will bring doubly negative results.
- You will need to go by these events as they come.
- Cooperate willingly to get cooperation.
- Take regular small breaks in your work or your health can be affected and will thus slow down your overall progress.

Things to avoid for success in career:

- Avoid hasty judgment, speech and action.
- Do not go for any arguments with seniors.
- Do not expect your own views, opinions, way of working or your own priorities will be accepted by your seniors or your team members or subordinates as this will not happen most of the time.
- Expecting less through career will give you energy and positivity as your efforts will have more chances to be successful.
- But while trying to achieve the above, you must avoid all varieties of controversies at all times.
- Maintain high work ethics, stay organized, grounded and disciplined in your work and maintain high standards of obedience to seniors and professional integrity.
- Focus only on real hard work and nothing else.
- Maintain decent thinking and precise and honest communication.
- Sincere hard work should be your target and should also be your bench mark.

Blessings,
