**How the effects get modified with retrogression:**

- Jupiter is the only planet that is capable of doing much more good when in retrograde motion than when he is in direct motion.
- Jupiter Retrogression is the only time when the naturally bountiful Jupiter is the brightest & closest to earth ready to bestow you with maximum benefits and opportunities, as allowed by its transit in Virgo and also by your own horoscope.
Jupiter Transit Report

- You would observe a hectic schedule and peaking of activity levels.
- And obviously you will need to be fully focused to utilize all these good effects and opportunities to the maximum possible level and degree.
- However there can be certain limitations on these good effects of transit Jupiter, despite his retrogression, since in your birth chart natal Jupiter is very weak and has zero digbala (directional strength) and hence he is per se quite inactive in offering or promoting good results.

**Suggestion on what to do during retrogression:**

Transit of Jupiter will offer positive results to a higher degree during retrogression but you will need to take into account other major factors of your birth chart and also other important transits occurring during the same period. It will be best for you to stick to a modest attitude and truthfulness and also maintain sufficient control over how you express these.

Offer due honor to others and stay on a righteous path without caring for immediate material benefits or tactical moves or any hidden agenda. This will give you a clearer and more peaceful mind and will bring social appreciation.

Try to meet all commitments that you have already made. All your material needs will have to be met by you only. Any close relationship or a partnership or any expanded relation with the opposite gender will need to be avoided from the start to avoid much discomfiture or loss of good name and incur various losses. You must adapt to demanding situations.
Jupiter Transit Report

Take specific and special care against communication failure as this is entirely possible and can harm you immensely. The period can be occasionally quite very dicey even if you can make yourself much careful or righteous. Observe people around you at work or in home or at society. Do this without any expectation from them. This will make you aware of the true potential of your surroundings and their usefulness to you.

Maintain and show sufficient respect and obedience to seniors at work and also elsewhere. Maintain self-confidence but strictly shun over confidence. There will be an inclination to rationalize wrong or inappropriate thoughts and actions and such tendency will have much chance to cause ultimate failure, loss or humiliation.

Precautions:

- Try hard to avoid duality in your thoughts and actions.
- This is very important since in this period, you may take actions [apparently practical] that will make you a poor manager of opportunities and wealth, and thus you will lose or waste your chances and your money and may invite financial stringency and other problems.
- Avoid greed, haste, over confidence and showy behavior.
- You should stay grounded, principled and disciplined in all your thoughts and actions.
- Avoid making new commitments if you are not sure of being able to honor them.
- Do not expect any help or even suggestions or cooperation from anybody on any matter, especially

Till 27 Oct 2017:

- Do not expect getting any loan or any other financial assistance.
- Do not act in overriding manner.
Avoid all kinds of over indulgence.
Do not try to get more than your dues.
Do not overestimate what you are to get as this can lead to troubles.
Strictly avoid ego, conceit, arguments, controversies and conflicts or you will face extreme form of restriction everywhere.
Do not seek help when you can do without it as such action will improve your image.
This is also due to the reason that you may be refused any help any way.

**Remedies for best effects:**

- Meditate or pray regularly.
- Donate five ripe bananas to any temple or any other place of worship.
- Alternately water a banana planet daily.
- Chant "Om Durgaoii Namah" as frequently as possible, the more the better.
- Even silent chanting will do.
- Keep fast during evenings and nights of all Saturdays.
- Sleep with your head towards the South direction.

Blessings,
Pt. Punarvasu
