Areas that Jupiter positively impacts and areas which should be developed:

**Positive areas:**

- Jupiter will be very positive for material gains, in terms of money, purchases, landed assets, education and other studies, arts, intellectual ventures, creative activities, love affairs and various enjoyments, travels, especially short ones, growth and enlargement of social life and also growth and prosperity of conjugal life.

**Areas to be developed:**

- Transit Jupiter may offer many opportunities but he will also expect you to be respectful to his blessings and make right use of them.
- There are some areas which will need specific efforts from you to augment and to duly utilize the beneficial effects of transit Jupiter.
- The area of highest priority will be right attitude, neither over nor under confidence will do.
- Use your intelligence and communication with appropriate circumspection and fairness.
- Dealing with members of opposite gender must be under right decorum and without any assumptive approach.
- Under situations that need quick thought and action, do not fall prey to short term benefits and keep fairness at the top in order to gain in the long term.

Areas that Jupiter negatively impacts and areas which should be controlled:

**Negative areas:**

- Jupiter (in the 6th house from Moon) can promote wasteful expenditure of money, wrong investment decisions and thus can cause debts.
- Once you fall prey to this, you will miss the excellent effects of Adhi yoga forming in transit for one full year.
Areas to be developed:

- Transit Jupiter, square to natal Nodes, will encourage the tendency to go to one extreme or another in any matter, event, or issue, and will restrict you from being reasonable, just, fair and logical and from walking on the middle of the road.

- Constant watch and self-control is needed to avoid this tendency.
- The area of control over judgment must be made adequately slow and precise.
- Negative effects of Mercury conjunction with Mars will be promoted by transit Jupiter and thus exacerbation of hasty thoughts and action can occur and can be really disastrous if not handled with adequate care.
