RESULTS OF THE CONJUNCTION/COMBINATION

- Conjunction or fusion between two planets in a sign, mixes the individual natures and effects of the planets with each other and with the sign where they are placed and further alters the effects with respect to the house they occupy within the horoscope.
- These effects get further enlarged in degree and scope of effects if the fusion occurs in the important divisional charts also.
- In your birth chart, you have the very important fusion between Mercury and Venus (also called 'Budha-Sukra Yoga') while this fusion is seen only in birth chart and not in divisional charts.
- Mercury is the significance of communication, coordination, thought processes, ideas, sensory information from both conscious and unconscious sources. Venus is signifying grace, values, beauty, tastes, pleasures, artistic inclinations, love and romance, money, entertainment, leisure, sensuality and comfort life.
- When this group of planet is very important to protect your action & pleasures through group of 'Mercury and Venus' and strengthening your mental strengthen to communicate your actual vision combine/fuse in a horoscope, their resultant energy grants to systematic approach to attain the objectives of your life through your vital force but it demands discipline and consistent efforts otherwise it may affect your focus and concentration from your targets.
- However the effects of any fusion can be influenced and modified, either way, by the actions of other planets or of combinations of other planets in the birth chart.

SPECIAL TALENT & TRAITS PRESENT DUE TO THIS CONJUNCTION:

- By Vedic definition, this yoga can bless you with good imaginative powers, strong mental strength, luxurious life, happiness, favourable associates, profitable attainments to fulfil your hopes while you can be in a important positions in your professional life but it will demand disciplined & systematic approach to keep its influence in future perspectives by influence of this yoga.

- Since your ascendant is Leo, you will naturally have a fiery sign, fixed and masculine trait while Sun, as the lord of your ascendant denotes active energy, action orientated, initiation, leadership, and aggression and survival instinct.
- The Mercury is the lord of the 2nd (house of wealth, possession & family) & 11th (house of sources of income, hopes & wishes) from Ascendant, Venus is having lordship of 3rd house (house of action, initiation, courage and immediate environment) & 10th (house of professional position & recognition) from ascendant.
- The conjunction of Venus-Mercury indicates that you are able to become social and communicating with ease, telling others how you feel, and negotiating. Mentally, you may not be as disciplined as usual, as you prefer to chat with others and to think about more “pleasant” things than work.
