

## Career Report with Adhi Yoga

Dear ABC,

THANKS FOR CHOOSING <http://www.indastro.com/>

**We have been providing astrology consultation and advice on true vedic principles on the internet since 2000 and serviced over a million customers with our free and premium services. We have prepared Career Report with Adhi Yoga\_20yr\_Readings:**

1)

**What is Adhi Yoga?**

If benefic planets [Jupiter, Venus and well associated Mercury] are situated in the 6<sup>th</sup>, 7<sup>th</sup> and 8<sup>th</sup> houses from Moon, the combination goes under the name of Adhi Yoga.

Even if these planets are present in two of these houses or even in only one house [instead of being in the three houses as mentioned above], Adhi Yoga is still valid but to a reduced degree.

With Adhi yoga, the person will be polite and trust worthy, will have an enjoyable and happy life, surrounded by luxuries and affluence, will defeat competition and will be healthy and live a long life.

2)

**Whether this Yoga appears in your natal chart:**

In your birth chart, the three benefic planets [Mercury, Jupiter and Venus] are not posited in the 6<sup>th</sup>, 7<sup>th</sup> or 8<sup>th</sup> houses from Moon.

Hence Adhi Yoga is not present in your birth chart.

3)

**When is Adhi Yoga formed in transit?**

Adhi yoga can also be formed when the above defined conditions are met in full during transit of planets and this can give similar good effects but such effects may be quite lesser in degree and will be effective only during the currency of the applicable transit.

Adhi Yoga effects are also possible to a much reduced degree and extent when transit Mercury, Venus and Jupiter, form a chain within your chart [when not placed in 6<sup>th</sup>, 7<sup>th</sup> and 8<sup>th</sup> houses from Moon] but remain in strength or in good signs.

In your birth chart these three planets will form an auspicious chain in transit during the period from 2<sup>nd</sup> May 2015 to 17 Nov 2015 [starting with Taurus, Gemini, Cancer and ending with Leo, Virgo and Libra] and will thus offer some of the good effects of Adhi Yoga.

4)

**Benefit for you?**

Due to the favorable transits of Mercury, Venus and Jupiter in the signs and **during the periods given under para-3**, you will get the following effects.

Your power of concentration will increase and you will be more and more practical.

Your mind will act in logical and versatile manner.

You will be quite articulate and your memory will be more retentive.

Though highly analytical, your mind will always act in quite rational manner.

It will become more and more sharp and active and capable of weighing the pros and cons of any matter and of taking balanced decisions.  
 You will learn new things and will use them to your advantage.  
 You will maintain a strong sense of family while your powers to function in a leadership role will improve and will bring you into lime light through newer and better opportunities.  
 All these will open the gates to growth and you will need to use the time for your gain in a more focused way.  
 However the actual and final status of your career will obviously depend on the overall quality of your birth chart, the main planetary periods that you go through and the transits of planets that influence your chart.

5)  
**Whether business, profession or employment is suitable?**

Your horoscope does not bestow you with the adequate luck for continued or meaningful success in business or in independent profession.  
 You may have strong interest for business etc and may also have the capacity for pursuing these lines of occupation but you can lose much in the absence of support of luck for success in these areas.  
 Employment career will be the only safe and suitable route for you to earn money.

6)  
**Industries /Areas suitable for your success:**

Career in areas related to the following [given in decreasing order of preference] or a suitable combination of them will be good for you.  
 These are advisory roles, administration, management, technical and scientific services, legal career, accountancy, financial management, banking, NBF industry, publication industry, medicine and all areas allied to it, health care services industry, hospital management, pharmaceutical industry, hospital supplies industry, diagnostic services industry, paramedical services industry, commercial units, food grains industry, luxury goods industry, hospitality industry, travel industry, entertainment industry and fine arts.

7)  
**Suggestions for improvement in your career:**

Your natural intelligence is of high order but you may not get the full benefit of your intelligence or hard work if you do not develop more self control and avoid sudden anger and attitude issues with people [both superiors and colleagues] at work place.  
 This is due to direct aspect of Saturn on Mars while Mars is placed opposite to Moon.  
 This is also due to placement of Saturn and Sun in consecutive signs/houses and Saturn, Saturn, the planet of contraction and Jupiter, the planet of growth being located together in career house from ascendant while Sun and Mercury are placed at the center of the nodal axis, all these occurring in birth chart D\_1.  
 The basic aggressive or combative trend of your attitude must be curtailed if not entirely avoided.  
 Otherwise this will continue to affect your patience too easily and will ruin your professional image and will also disturb your physical vitality that is necessary for sustained hard work and good performance.  
 You will often find that you have no energy left when you have a lot to do but may have plenty of energy when you do not need so much.  
 While you will go to one extreme or the other of matter or issues and will never be on the middle of the road.  
 You will need to strike a balance between these two extremes.  
 Also many events in your career will occur in a destined manner [Saturn with Moon are placed at the center of the nodal axis in your D\_9 chart] when your own ideas, suggestions, views and plans will not get any appreciation or acceptance and you will not have any control over such events though you will be much hurt by these.  
 You will do well to accept this situation as they are [and do this with a smile] since any opposition or obstruction from your side to such destined events will bring doubly negative results for you and you alone will be the loser.

You will also need to improve your professional communication to showcase your strong points without appearing to be proud [Mars aspects Mercury in your D\_10 career chart] so that you let others see you in brighter colors.

Cooperate without hesitation to get cooperation.

8)

#### **Things to avoid for success in career:**

Avoid hasty speech and action.

Do not go for any arguments with seniors.

Do not expect that your views and logics or your style of functioning will be accepted or even be appreciated by superiors and others as this will not happen.

Expecting less will give you more peace of mind and good health as frustration and anger will be avoided.

Avoid all varieties of controversies at all times.

9)

#### **Note:**

The readings given below are based on the understanding that the guidelines given above with respect to career route [business, self employment or service] and area/industry of work are followed.

Otherwise the readings may vary WIDELY in Nature, degree and timing.

#### **Forecast [for next 20 years till 30 May 2035]:**

#### **Analysis of main and sub periods of planets:**

The next twenty years will see two main planetary periods, of Jupiter [till 17 Nov 2030] and then of Saturn.

The current main period lord Jupiter is only moderately strong with average auspiciousness quotient, residential and directional strengths.

Jupiter is conjunct with Saturn in D\_1 chart, is placed at the center of the nodal axis in career chart D\_10 and is placed in the 8<sup>th</sup> house under aspect of Mars in D\_9 chart of professional relationship.

Thus Jupiter main period will offer only mixed and moderate support to your career.

The next main period is of Saturn placed with Jupiter in birth chart.

Saturn is debilitated in D\_9 chart.

In career chart D\_10, Saturn is moderately placed in the 5<sup>th</sup> house but in Leo sign and thus offers only mixed and average results.

Among the applicable sub period lords, the results of Jupiter and Saturn will be as given above.

The other sub periods will offer results as given below.

Mercury is strong and auspicious but is afflicted at the center of the nodal axis in D\_1 chart, gets malefic aspect of Mars and Rahu in both D\_9 chart and D\_10 charts.

Ketu is in the wealth and speech house in Capricorn sign in birth chart, in ascendant in D\_9 chart and in Aries [with Moon] in D\_10 career chart being square to Sun and Jupiter.

Venus is highly inauspicious and inactive in D\_1 chart, is placed with Rahu and gets aspect of Saturn in D\_9 chart and D\_10 chart.

Sun is exceptionally inauspicious and is placed at the center of the nodal axis in D\_1 and in D\_10 charts and is placed next to Saturn in D\_1 chart.

Moon is quite strong in D\_1 chart but suffers from Papa Kartari Yoga [PKY] between the nodes in birth chart D\_1.

Moon is with debilitated Saturn in D\_9 chart and is much afflicted by the nodes in D\_10 chart.

Mars is strong in birth chart but is afflicted by aspect from Rahu and Saturn and is placed opposite to Mercury in D\_9 chart and D\_10 chart.

Rahu is in the 8<sup>th</sup> house in birth chart D\_1 and afflicts the entire birth chart with Moon on one side of the nodal axis and all other planets on the other side.

Rahu afflicts the house of professional relationship from ascendant in D\_9 and from Moon in D\_10 charts. Thus the main or sub periods of any of the nine planets is incapable of protecting or promoting your career fortune during these twenty years.

Thus any good event in the area of career will depend on your attitude, judgment, wisdom and self control and also on the auspiciousness and strength of the applicable transits of planets at any point of time during these twenty years.

All readings given below are to be understood and used in the light of the above points.

### **Yearly forecast of career:**

#### **Year 2015:**

Saturn in transit in the 12<sup>th</sup> house of loss from ascendant and in the 7<sup>th</sup> house of relationship from Moon will remain much obstructive for career matters till 27 Oct 2017.

During this year you are expected to face many differences with and restrictions from superiors at work place. Work pressure will be very high and varied in nature.

But good balance will be maintained by favorable position of transit Jupiter, especially during the second half of this year.

You will not get any opportunity for progress in role or position.

Yet you will not miss a hike in your pay.

There will be much need for tolerance and tact in day to day work.

Ignore minor humiliations that can occur.

Also take special care of any area of work that can have some legal implication.

Try to keep fit to let you do the hard work that will be called for.

Do not attempt to change your job now since such efforts will not be successful or good for you.

#### **Year 2016:**

This year will maintain the basic trend of 2015 but overall this year will be comparatively much better.

Despite the fact that you will face many criticisms and restrictions at work from both seniors and also from colleagues, your luck will improve significantly and you will have chance to get better projects or roles in this year.

While you can handle both old and new areas well and together, it will be better for you to do well in the new areas quickly while you ensure that the current areas continue to be well attended by you as before.

This will cut down on any further chance of criticism and will gradually improve your existing image.

Overall your performance will be very good and this will be silently appreciated though open acknowledgement will not be expected.

This year will not bring any chance of promotion but you will earn a very good hike in pay.

All the above events will improve your mood and this will reflect in your performance.

Take care to not spoil this good trend through sudden conflict with anyone, superiors or equals.

Also remain alert about legal areas of your work, if any.

#### **Year 2017:**

This is also a quite positive year though no direct growth point is promised.

All the good and the bad trends will remain as before.

But your luck for career will improve further and good financial growth will be possible in this year.

This luck has to be maintained throughout this year so that you enter the year 2018 with a solid foundation of professional image.

This is especially necessary to guard against negative events that will start from the year 2018.

Complete all pending tasks quickly and well.  
Build up good relations with all and ensure that you become as much indispensable to your employer as is practically possible.  
Also it may be useful to look around for other jobs just in case you need to change your job in the next year.  
This is a year for consolidation and firming up plans for 2018 to 2020.  
The stronger you make your image the better you will do during 2018-2020.

#### **Year 2018:**

2018 to 2021 will be very challenging in various ways and due to variously different astrological reasons.  
Transit Saturn will now be in the 8<sup>th</sup> house from natal Moon [Astama Sani – very negative] and moving square to natal Saturn and Jupiter [much negative and troublesome].  
You will have to face many sudden situations when you will see totally new and challenging obstructions in your work.  
The overall outlook at work place will be very negative.  
Your responsibilities and tasks will increase much while the infrastructural support will be reduced.  
Thus it will be very difficult for you to deliver results and meet the targets.  
You will not get any support or cooperation from anyone, seniors, colleagues or subordinates.  
At the same time you will be in much need for support.  
Restriction and obstruction on your working will increase further and will be very difficult to handle.  
Indifferent health status too will add to your problems at work.  
But transit Jupiter will maintain stability in career and your position will remain safe.  
You will get a hike too but much moderate than before.

#### **Year 2019:**

All the issues and challenges in career will remain strongly present till the middle of 2019.  
You will need to maintain your personal confidence and work as calmly as possible.  
You will also need to depend more and more on yourself and not expect any help or support from anyone.  
Such actions will let you see your environment in true color and this understanding will sort out many of your problems.  
From Jul 2019 your time will improve due to transit Jupiter entering ascendant, Jupiter's own sign.  
You will have better luck in all matters at work while your judgment of all issues and events will be quite precise.  
However the overall picture will not come out of the malefic effects of Astama Sani and thus you cannot relax your alertness or cautions yet.  
This is a time to stay alert, work hard, have patience and see through the negative phase ending on 25 Jan 2020.

#### **Year 2020:**

This year you will be free [wef 25 Jan 2020] from the negative effects of Astama Sani as transit Saturn will enter Capricorn, the 2<sup>nd</sup> house from ascendant and the 9<sup>th</sup> house from Moon sign.  
However transit Jupiter will not be able to give you steady support as he will keep moving between your ascendant and the 2<sup>nd</sup> house and thus will be debilitated for most of the time till Apr 2021.  
Only career safety will be maintained while you may not get any peace at work or any increment in your pay.  
Any effort to change your job will not be successful.  
This will not be a specifically challenging year but it will prove to be quite frustrating due to long stagnation covering this year and the years before it.  
There is no way to get away from this ordeal and you will need to maintain patience for some more time.

#### **Year 2021:**

Status quo will be maintained till Apr 2021.

From May 2021 transit Jupiter will come out of debilitation and will enter Aquarius [the career house from your Moon sign] and will very favorably aspect your fortune house and gain house from ascendant.

Transit Saturn will not be so well placed in Capricorn in the 2<sup>nd</sup> house from ascendant and in the 9<sup>th</sup> house from Moon in your birth chart.

Yet transit Saturn will be in the gain house from ascendant in D\_10 career chart and in the career house from Moon in the same chart.

Thus it will be possible for you to change your job to a quite better position and better income level.

But problems with superiors will still remain very active and challenging [transit Saturn square to Sun and Mercury in birth chart] and over Sun and opposite Jupiter in career chart D\_10.

You will need to be more cautious and careful now since the growth point have come after a long period and must be retained without any major issue.

### **Year 2022:**

Career situation will remain challenging but financially more favorable in this year.

You will be able to use your past experience and handle all career problems with a better sense of judgment and timing but till Apr 2022.

Thereafter transit Saturn will be in Aquarius in the 3<sup>rd</sup> house from ascendant and in career house from Moon sign.

This will bring you a still better growth point in career through another change job that will pay you quite heavily.

At work you will not have to face any problems through seniors.

But your colleagues will create many obstructions for you and will try to stop or restrict your good work.

You will need to understand their mind and work around them without engaging yourself in direct combat.

There will be a lot of gain in many ways if you can do this.

### **Year 2023:**

Communication with colleagues and other below you will be the main bottleneck in this year and also in the next. There will be several occasions of communication failure and also some occasions of false allegation from inimical colleagues.

You will make repeated mistakes of airing your views too strongly and often at the wrong moment.

Your attitude [that you handled rather well till this time] will be quite negative and too conceited now.

This will cause several disagreements and conflicts.

The matter of such frequent differences will reach the top guys and will carry a wrong hint about your capacity to work as a team man.

This is a very negative status for anyone to be in at your present stage of career.

Only self control and more focus to right priorities can help you or you will suffer much.

### **Year 2024:**

The status of career dynamics will remain the same.

You may not be sufficiently convinced that your approach to work needs change.

You will work hard and produce very good output but your professional image will suffer.

This will strongly stand in your way to further progress though your income will keep rising.

This is an important year to change your working style and improve your personal image since the coming years will be quite difficult per se and it is not safe to enter that stage without sufficient goodwill.

Take care to observe your surroundings, assess it well and then act.

You cannot afford to let communication failure obstruct your progress.

This is a time to wake up to reality.

### **Year 2025:**

Career status will remain the same till Mar 2025.

After this transit Saturn will enter Pisces and will be opposite to natal Jupiter and natal Saturn in birth chart and will be in your ascendant in career chart being square to Mercury and Mars there.

Thus initially you will do very well to meet your targets but sooner than later you will make mistakes at work due to your hurry to cross targets and impress your superiors.

Such mistakes will bring major obstructions from both colleagues and seniors and working will be a challenge in itself.

Only with calm handling and rational ways of working you can avoid or sort out such issues at work.

However your performance will be good enough to make your employer happy and you will be rewarded with a very handsome hike in your pay.

Yet it is important to take more care during this year and also during 2026 and 2027.

### **Year 2026:**

Problems with making mistakes at work will continue.

Though you will put a check on further mistakes and will also own up the mistakes omitted already and will also offer to set them right yet the obstructions from various quarters will remain very strong.

Much of your time and energy will be wasted in handling these issues and real work will be indirectly neglected.

Growth cannot occur under this status and even hikes may be somewhat doubtful, though not impossible.

Health will start declining at this stage and will also affect your proper functioning.

Thus you will need to plan in advance about the years 2025 to 2027 and act accordingly so that you can anticipate things early and can better your career possibilities.

### **Year 2027:**

This year will continue the trends of the last year but there will be significant improvements made by your focused efforts.

You will be much determined to do well and will improve your attitude to some extent and your communication will be less haughty.

Yet your image will not get better proportionately or to the desired extent.

At the most you can be successful in not allowing the situation to get worse.

Your health too will not be fit enough and hard work will be difficult at times.

Yet you will work very hard and use more self control in all relevant matters.

You will get a fair hike in pay but will not see any chance of growth in your position.

### **Year 2028:**

Period from 2028 to 2030 will be very challenging when many things will go wrong and stand against your progress.

Transit Saturn will be debilitated in the house of judgment and will also start the period of Sade sati [7.5yr transit of Saturn over three signs - before, on and after Moon].

The period 2028 to 2030 will be the worst and most inauspicious part of Sade sati that will run till 2034.

Very significant disagreements with seniors will start.

There will be many occasions of wrong observation, perception and analysis and hence wrong decisions.

This will bring more conflict with seniors who will trouble you in many ways and will severely persecute you.

Peaceful and focus in working will be impossible.

Health will decline quickly and will affect your work and performance in a big way.

Career will see a major road block since transit Saturn will be opposite natal Sun.

No progress, no hike and no peace or satisfaction at work is expected.

No chance of change of job is seen either.

### **Year 2029:**

Challenge to retaining your position may graduate to threat to job and this will be very open and clear in this year.

You will need to avoid all controversies, conflicts, arguments and obduracy in all matters.

Lie low, communicate diplomatically, and stay obedient and highly flexible and cooperative. Otherwise you may easily trigger your loss of job. Take more care of your health as personal issues related to your progeny can put much stress on your mind and then on your body. However transit Jupiter in your gain house from ascendant will have much chance of acting as your savior and thus there may not be any definite chance of loss of position. Yet much care and caution will be called for.

#### **Year 2030:**

Your career status will remain the same as in 2029 till Apr 2030. At this stage transit Saturn will move to Taurus, your Moon sign. Since Saturn is Yoga Karaka planet for Taurus Moon sign, this transit placement will be quite favorable for you career, more so since transit Jupiter will be in the 6<sup>th</sup> house from your ascendant. Saturn being the lord of fortune house and career house, this year can give you a good chance to change your job to a better and higher position. Transit Jupiter in your 7<sup>th</sup> house from Moon sign will support and promote this. However it is quite likely that the new job will actually spill over to 2031 when transit Jupiter enters your ascendant. Irrespective of current or new job, professional equation with colleagues will remain highly combative and stressful and you will need to follow the guidelines suggested to you above for stability and growth of career.

#### **Year 2031:**

You will join the new and better job in this year. Position and compensation will be very good and almost unexpected. Your usual problems with peers will remain very strongly present. Relation with seniors too will remain much disturbed. You will have regular arguments on many issues while many of these can be easily avoided if you want. Otherwise these issues will do permanent damage to your professional image and getting another good job will be very difficult on long term. Seeing the career curve till this year, you will know that there is a very huge need to alter your attitude to suit the needs of the hour and allow your career to grow without such repeated hassle and anxiety.

#### **Year 2032:**

The year 2032 will cause significant health issues rather suddenly. If you allow the conflicts at work to go on even now, then your health will be further stressed and through cumulative reactions will cause major harm to your career. You can avoid all these by simply modifying your attitude that has restricted your career growth for far too long already. If you cannot do this now within 2034, only you alone will be responsible for spoiling good opportunities for growth in career. Stop staying combative and start acting in your own favor.

#### **Year 2033:**

This will be a quite negative year but can be handled well too. Transit Saturn under the main and sub period of Saturn will be in your 7<sup>th</sup> house and square to natal Saturn and Jupiter while transit Jupiter will remain debilitated. Thus there will be a sudden rise on demands on you at work place and this will cause you to get too much upset over this and will lead to major conflicts with seniors. This will complicate the issue and will pose many obstructions to your working and showing good results.

You will not get support from any planet or from any person.  
Only you can support yourself by controlling your temper and by being accommodative.  
Avoid contesting on every matter that you may not like.  
Such approach does not pay anyone and will not pay you either, especially at this stage.  
You may miss a hike in your pay at this stage.

#### **Year 2034 [till 30 Apr 2035]:**

Position of transit Saturn will not change while transit Jupiter will be much favorably placed now in the 3<sup>rd</sup> house from ascendant opposite to fortune house and will aspect transit Saturn favorably.  
But due to sub period of Mercury your communication will suffer much.  
You may act in much critical manner about all others and in every matter, almost to a degree of exaggeration.  
This attitude will entirely go against you and can be harmful for you despite support of transits.  
It is truly important for you that you introspect honestly and take control over yourself and how you deal with others.

**Irrespective of the type of occupation [job or business or self employment] that you choose, positivity in your career will depend entirely on the positivity of your attitude and your relation with all others in your occupation.**
