Dear ABC,

THANKS FOR CHOOSING <http://www.indastro.com/>

We have been providing astrology consultation and advice on true vedic principles on the internet since 2000 and serviced over a million customers with our free and premium services. We have prepared Luck Karma Report With 2 years Analysis & Predictions:

1.

The strength of 3 tripods (1st house, 5th house & 9th house):

The ascendant [1st house], the fifth house [Purva Punya or accumulated Karma – good or bad Karma, accrued over the past births] and the 9th house from it [fortune and luck due to good karma during the present birth but also includes some effects of Karma of the last births] are the main houses that determine what benefits one enjoys or what sufferings one faces.

These houses are linked through mutually trine positions.

The strength and disposition of these houses gives a measure of the quantum and quality of the benefits or otherwise and ideally all the three should have high strength for better results.

In your birth chart, these houses have 9.98, 9.11 and 6.61 units of strength respectively.

Thus your PurvaPunya is very high and supportive than your punya of present life, while the Punya acquired during the present birth is demanding consistent & serious efforts to make balance in life due to lesser position of it.

2.

Planets that influence the 3 tripods and the effects that would be felt on luck:

Sun, the lord of ascendant, is well placed at his exalted sign of Aries.

It is also having conjunction with 11th the house of sources of income & wishes and 2nd the house of wealth & possession lord Mercury, which is making budhaditya raj-yoga in your chart.

This planetary combination is strengthening your thought, vision and approach about life along with positive results.

But it is having close square aspect with most inharmonious Saturn which is reducing positive influence of Sun and its prosperity.

Thus Ascendant and its lords is influencing and increasing your abilities and skills along with leading approach but sometimes you may incline for rash decisions, temper tantrums, and excesses. The desire to oversee the goings-on in their circle can sometimes amount to bossiness.

Jupiter is the lord of 5th house from ascendant, which is placed in the house of association at sign of Aquarius. The 12th lord Moon is placed in 5th at sign of Jupiter along with having favorable sextile aspect with its lord Jupiter and Jupiter is having sextile aspect too with Ascendant lord Sun and Mercury.

In spite of Jupiter is having square aspect with profession lord Venus, which demands concerned approach in professional relationship, otherwise it may cause of trouble in your growth point of career.

You should maintain your self-esteem and recognition through consistent efforts & support of your seniors, then you will be able to give a right direction to your professional activities and relationship. Thus the 5th house of PurvaPunya is auspiciously strengthened to a very high degree and is qualified to offer much positive luck and many useful opportunities to you and also success in your endeavors.

The 9th house lord is Mars which is placed in second sign of Jupiter at his friendly sign of Pisces. However it is posited in 8th the house of unwanted challenges along with making square aspect with Moon. In spite of, it is also having sextile aspect with his inimical planet like Saturn and Venus. Due to this, your fortune is quite weak and each thing will be attained by you through your hard efforts. Communication will also be very important and become base of your karma and consistent efforts. Due to this, tension and pressure would be part of work which may create condition for communication gap or disagreement with working associates and dear friends. Overall this would be supportive to reach at higher position of professional life along with availability of all happiness and pleasurable things.
