Dear ABC,

THANKS FOR CHOOSING <http://www.indastro.com/>

We have been providing astrology consultation and advice on true vedic principles on the internet since 2000 and serviced over a million customers with our free and premium services. We have prepared Luck Karma Report With 20 years report:

1.

The strength of 3 tripods (1st house, 5th house & 9th house):

The ascendant [1st house], the fifth house [Purva Punya or accumulated Karma good or bad Karma, accrued over the past births] and the 9th house from it [fortune and luck due to good karma during the present birth but also includes some effects of Karma of the last births] are the main houses that determine what benefits one enjoys or what sufferings one faces.

These houses are linked through mutually trine positions.

The strength and disposition of these houses gives a measure of the quantum and quality of the benefits or otherwise and ideally all the three should have high strength for better results.

In your birth chart, these houses have 9.41, 6.95 and 5.01 units of strength respectively.

Thus your Purvapunya and Punya both are quite weak and approx similar unit together. In which purvapunya is greater than Punya and it is also demanding disciplined approach along with hard work because perspectives of your life will be attained by you through only your sincere efforts.

2.

Planets that influence the 3 tripods and the effects that would be felt on luck:

Saturn, the lord of ascendant, is well placed in the house of growth & development at his friendly sign of Gemini . The Saturn is in retrograde position along with having lordship of 12th house of unusual expenses & abroad and having close conjunction with Ketu which indicates Hard aspects are associated with troublesome social relationships or withdrawal from socializing as part of a necessary process of personal growth. You will be learning to rely on yourself, as well as to adopt a humbler approach to others.

In spite of, Saturn is also having aspect of opposition with enemy lord Moon conjunct Rahu, you may be having feeling of overlooked, left out, on your own, and even uncared for. Everyday coping skills can be compromised --chores and routines seem to be harder to do or more burdensome than usual. It can be hard for you to take risks at this time, and you are likely to focus on the negatives in your life.

However the trine aspect with natal Sun is strengthening your thought, vision and approach about life along with positive results.

Thus Ascendant and its lords is influencing and increasing your abilities and skills along with leading approach. You are having own individuality and specialty along with constant in your relationship and stick on your principles.

Mercury is the lord of 5th house from ascendant, which is placed in the house of professional activities at hid inimical sign of Scorpio.

In spite of, it is also making conjunction with 9th lord Venus and indicating Mani-Kanchan raj-yoga in your chart, that's why you find yourself more socially composed than usual now. Mentally, you are not as disciplined as usual, however, as you prefer to chat with others and to think about more "pleasant" things than work. But sign lord Mars is strongly placed in own house along with retrogression but having most inharmonious aspect with Mercury, due to this, instead of listening to what others have to say, you could end up interrupting them and making assumptions. Alternatively, you could find others doing the same to you. This is not a good to make important decisions, as your thinking simply isn't clear. You should maintain your self-esteem and recognition through consistent efforts & support of your seniors, then you will be able to give a right direction to your professional activities and relationship. Thus the 5th house of PurvaPunya is not having a powerful condition that's why it will require your concerned approach about new development in professional life and also during becoming new relationship. Faith on strangers would not be beneficial for your decisions.

The 9th house lord is Venus which is also placed in profession house at his inimical sign of f Scorpio, which is having inimical relationship. However conjunction of Mercury would be quite favorable for your moral values & ethics which will give strong mental strength to make plan and life schedule as per your own. But the position of inharmonious Sun is also in house of fortune along with having unfavorable opposite aspect with insignificant Mars, which may badly affect your confidence and self-belief along with conflicts with authoritative personalities. Careless or impulsive behavior can be a problem. You could find yourself feeling thwarted, frustrated, or restless. This is likely due to the fact that you are not in touch with what it is you really want. Watch also for hasty actions that could result in minor injury or stress. Due to this, tension and pressure would be part of work which may create unfavorable condition for communication gap or disagreement with working associates and dear friends but if you keep patience then it will be able to reach your expected position.

3.

Description of effect on 5th & 9th house to see Purvapunya & comments on what you did or experience in the past birth:

Due to the various planetary influences on the 5th and 9th houses as described above, the following effects emerge about what you did in your earlier birth and how these will influence your life in this birth:

5th House:

Very likely you come from a sheltered or very quiet previous lifestyle.

Although it was placid and settled, you lacked stimulation.

You need to make up for apparently lost time by reaching out to the environment and finding out what you may have missed.

The Gemini's scattered or brief attention span is a type of fallout from that need to find out as much as possible in as short a time as possible.

The accompanying urge to tell everything they know can alienate others.

Gemini has been given the gift of understanding expression.

There is a reason for it, to create a foundation of inner understanding for themselves.

You must keep the goal in mind.

There is a powerful mental connection with your creative self-expression.
 You are proud of your ideas, and very good at expressing them to others smoothly now.
 Your thinking is more creative than usual.
 You tend to entertain others with your conversation; and your sense of humor (and of mischief!) is especially strong.
 You especially enjoy games that involve competing with others on a mental level.
 You have a stronger need than usual for intellectual stimulation.
 You're more willing to take risks on a mental level now, so take advantage of the increased spontaneity and creativity that comes with this position.

9th house:
 You come from past experience where your mistakes made a deep impression on you.
 This sometimes makes it difficult to be decisive for fear of the consequences of being in error. You also have worked very hard, and in certain areas of life, you're just tired.
 The lesson of personal integrity is one which will be difficult to avoid.
 Although you need harmony and peace in their lives, you will pay heavily in the long run if you compromise yourself.
 You sometimes resent the efforts you must make to "get along" in the world; however your gift is that you are capable of finding the way which will leave your integrity unharmed.
 It denotes bodily or material comfort and happiness.
 At home, your siblings would be more cooperative and affectionate than ever.
 Some auspicious deeds are likely to be performed at your home.
 A socially conducive period could also be expected where you are likely to make new friends.
 You may also get a mentor to show you the spiritual path.
 Your good qualities and virtuous deeds would be noticed and would bring in good reputation in the society.
 This could see your desires fulfilled and enemies defeated.
 If you get involved in any kind of discussion, you are likely to be winning the same.
