

CoronaVirus: There's Hope! An Astrology HelpGuide

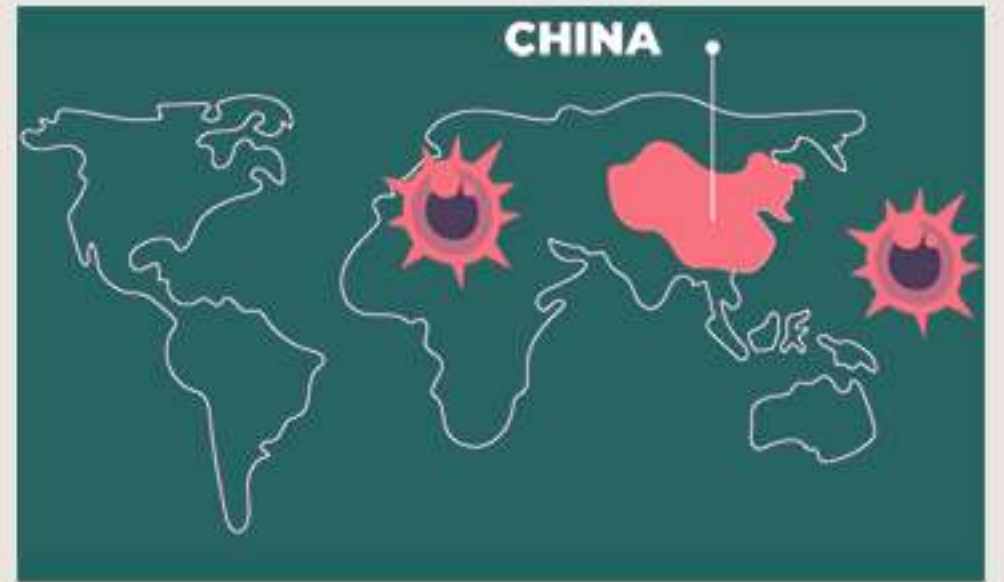

by **Indastro.com**

19th March 2020

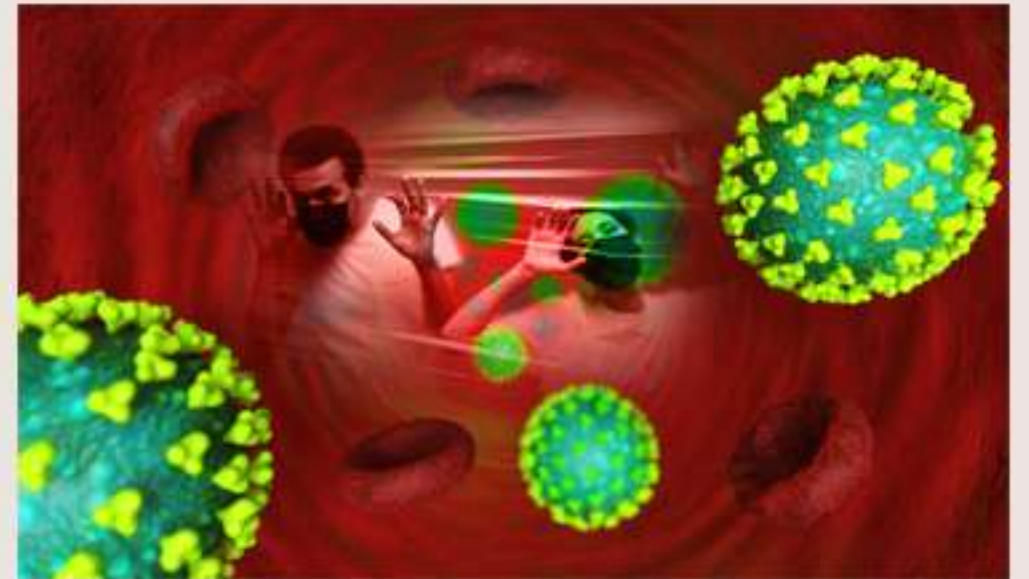

The Rise of Virus - the Trigger Point

- China, the country with Capricorn as the rising sign had the 6 planet conjunction with Solar Eclipse in Sagittarius, the 12th house of misfortunes. Jupiter, that had moved into Sagittarius on 5th November, triggered the first CoronaVirus case on 17th November in China.

The Rise of Virus - The Media Outbreak

- Jupiter, known to expand & grow the areas it influences, came in touching distance of Ketu in January 2020. Ketu, the dragon's tail signifies 'Virus' & infections of mysterious nature that crop up unexpectedly. This was also the time when the Virus made big news in the media due to Jupiter effect.

The Expansion Phase - Covid-19 takes the world by the storm

- In February, the fierce Mars came in touching distance of Ketu flaring up the contagious disease to over 100 plus countries.

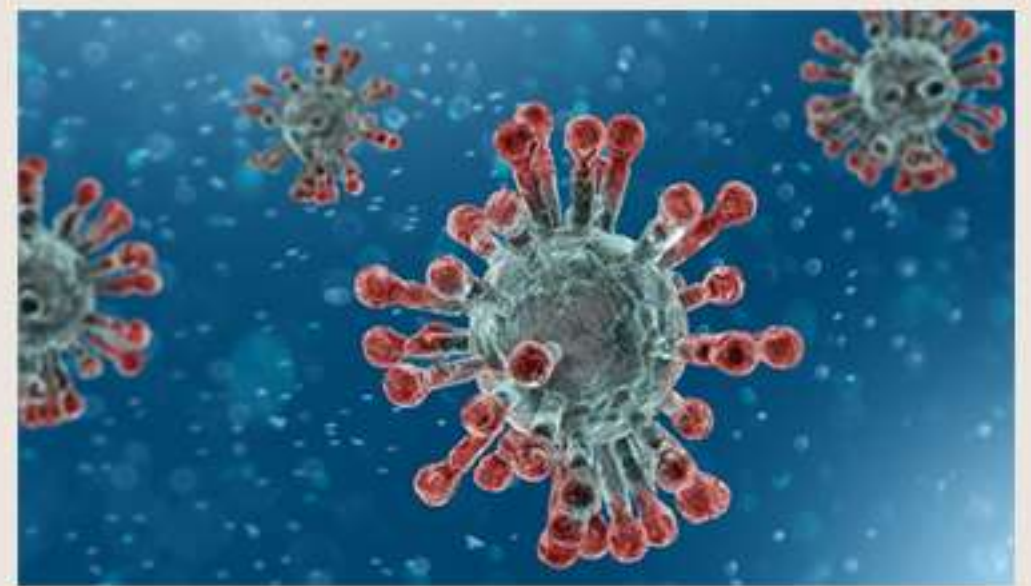

The Fall of Virus - The Wearing-off Phase ahead

- On 22nd March, Mars would be advancing to Capricorn leaving Ketu behind and Jupiter making an entry into Capricorn too on the 30th of March. This will be the time of relief in the community spread that's being seen across the world

The Resurfacing Phase - Covid-19 comes back to go away!

- Jupiter would start retrograding in Capricorn & fall back into Sagittarius on June 30th. This time onwards marks the period of resurfacing of the Virus. The gap with Ketu will ensure a much lesser intensity and final abetting of CoronaVirus in a few months time.

Important DATES: CoronaVirus Timeline

-  **March 30th** - Some respite in sight, with Jupiter's movement
-  **April 14th**, the exalted Sun would bring in control & solutions
-  **June 30th** - The infection could make a mild comeback due to laxity & mistakes, to finally end in a few months
